Information

The Governance Innovation Week 2014 has been designed as a 'green' conference. All our advertising materials, folders, posters and pens have been produced with recycled materials. All our international guests will be accommodated in beautiful local guesthouses around our campus and our staff will walk with them back and forth every day of the conference. The food and drinks served at all receptions are organic and locally produced. Each meal will be accompanied by a short description of its cultural and geographical origin besides its nutrition content. We have catered for a variety of dietary requirements and intend to showcase the beauty of African cuisine. We all trust you will also enjoy this aspect of the conference. Our entertainment event on 4 June will include ethnic dancers, local choirs and poets. These are all students who believe in pursuing different forms of art as part of their academic curriculum.

This conference is funded by the Jean Monnet Research and Information Activities (Project N°. 538192-LLP-1-2013-1-ZA-AJM-IC) and co-funded by the European Union's FP7 programme Atlantic Future (Grant agreement no: 320091), the South African Department of Science and Technology, the RegioConf project (with funding from Compagnia di San Paolo, Volkswagen Stiftung and Riksbankens Jubileumsfond), CIRAD – Agricultural Research for Development, the Centre of Globalization and Development at the University of Gothenburg and the Building Global Democracy Project.

Printed on Respecta 100 – produced from 100% post-consumer recycled fibre using power from high performance cogeneration plants, which means that for every tonne of Respecta 100, there is a saving of 100 kg of carbon emissions.
